

# Monthly Fund Performance

Share Class: Institutional

The performance data quoted represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance data quoted. Performance data current to the most recent month-end may be obtained at [GuideStoneFunds.com/Funds](https://www.guidestonefunds.com/funds). The investment return and principal value of an investment will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Returns exceeding 20% reflect unusual market conditions and may not be sustained at this level over the long term.

Regarding the GuideStone Funds, when the gross expense ratio and the net expense ratio are different, it reflects fee waivers and expense limitations for the fund. Unless renewed, the contractual end dates of the expense limitations for the Value Equity Index, Growth Equity Index, International Equity Index, Strategic Alternatives, Impact Bond, Impact Equity (Investor class), MyDestination 2015, MyDestination 2025, MyDestination 2035, MyDestination 2045 and MyDestination 2055 funds are April 30, 2024. Please refer to the prospectus for more information.

**You should carefully consider the investment objectives, risks, charges and expenses of the Funds before investing. For a copy of the prospectus with this and other information about the Funds, call 1-888-GS-FUNDS (1-888-473-8637) or visit [GuideStoneFunds.com/Funds](https://www.GuideStoneFunds.com/Funds) to view or download a prospectus. You should read the prospectus carefully before investing.**

*You could lose money by investing in the Money Market Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time. Yield for the Money Market Fund represents the annualization of the fund's declared dividends over the period indicated, excluding capital gains distributions. The yield more closely reflects the current earnings of the fund than the total return. Gross Yield reflects the yield if fee waivers were not in effect.*

Shares of GuideStone Funds are distributed by Foreside Funds Distributors LLC, a registered broker-dealer and underwriter of the Funds, not an advisor affiliate. Foreside is not a registered investment adviser and does not provide investment advice. GuideStone Capital Management, LLC®, a controlled-affiliate of GuideStone Financial Resources, provides investment advisory services for the Funds.

<sup>1</sup> The MyDestination Funds ("Funds") attempt to achieve their objectives by investing in the GuideStone Select Funds. The Funds are managed to a retirement date ("target date") by adjusting the percentage of fixed income securities and equity securities to become more conservative each year until reaching the retirement year and then approximately 15 years thereafter. The target date in the name of the Funds is the approximate date when an investor plans to start withdrawing money. By investing in the Funds you will also incur the expenses and risks of the underlying Select Funds. The principal risks of the Funds will change depending on the asset mix of the Select Funds in which they invest. You may directly invest in the Select Funds. The Funds' value will go up and down in response to changes in the share prices of the investments that they own. The amount invested in the Fund is not guaranteed to increase, is not guaranteed against loss, nor is the amount of the original investment guaranteed at the target date. It is possible to lose money by investing in the Funds.

<sup>2</sup> Target Risk Funds ("Funds") attempt to achieve their objectives by investing in the GuideStone Select Funds. By investing in the Funds you will also incur the expenses and risks of the underlying Select Funds. The principal risks of the Funds will change depending on the asset mix of the Select Funds in which they invest. You may directly invest in the Select Funds. The Funds' value will go up and down in response to changes in the share prices of the investments that they own. It is possible to lose money by investing in the Funds.

<sup>3</sup> Foreign securities involve risk from adverse changes in currency exchange rates. Securities of emerging countries may involve additional risks including price volatility, reduced liquidity, lax financial reporting requirements as well as political and economic instability.

<sup>4</sup> The Fund's volatility may be amplified by its use of short sales and derivatives. Short sales by a fund theoretically involve unlimited loss potential since the market price of securities sold short may continuously increase. Leverage may increase the risk of loss and cause fluctuations in the market value of the Fund's portfolio to have disproportionately large effects or cause the NAV of the Fund generally to decline faster than it would otherwise.

<sup>5</sup> Convertible bonds are subject to interest rate risk, meaning values of existing bonds generally fall when interest rates rise. They also may decrease in value when the underlying common stock decreases in value.

See next page for important information.

<sup>6</sup> There is a risk that value-oriented investments may not perform as well as the rest of the U.S. stock market as a whole.

<sup>7</sup> The Institutional and/or Investor class of the Fund is new and has no and/or limited operating history for investors to evaluate.

<sup>8</sup> Small company stocks are generally riskier than large company stocks due to greater volatility and less liquidity.

<sup>9</sup> You could lose money by investing in the Money Market Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.

<sup>10</sup> The bonds held by the bond funds are subject to interest rate risk. Values of existing bonds generally fall when interest rates rise.

<sup>11</sup> The fund invests in high yield securities, commonly known as "junk bonds." While offering higher currency yields, these securities generally are considered speculative and are subject to greater default and liquidity risks than higher-rated bonds.

<sup>12</sup> Shares of the Capital Preservation Fund are offered and sold by GuideStone Financial Resources. GuideStone Capital Preservation Fund is not subject to registration, regulation or reporting under the Investment Company Act of 1940, the Securities Act of 1933, the Securities Exchange Act of 1934 or state securities laws. Therefore, participants and beneficiaries will not be afforded the protection of those provisions to the extent that they are not applicable. Inception date for the GuideStone Financial Resources Capital Preservation Fund is 4/1/2003. Participants are prohibited from exchanging out of the Capital Preservation Fund to a 'competing fund' without first investing in a 'non-competing fund' for a period of at least 90 days. Also, simultaneous exchanges are not allowed. The crediting rate may change each quarter. The fund seeks to maintain, but does not guarantee, a value of \$10.00 per share. More details about the fund and the exchange limitations are available on GuideStone Financial Resources of the Southern Baptist Convention's Web site, [www.GuideStone.org](http://www.GuideStone.org), or by calling 1-888-98-GUIDE (1-888-984-8433).

<sup>13</sup> Real estate investing involves risks not associated with investing in stocks. Risks include declines in the value of real estate, general and economic conditions, changes in the value of the underlying property and defaults by borrowers. The value of assets in the real estate industry may go through cycles of relative underperformance and outperformance in comparison to equity securities markets in general.

<sup>14</sup> The Fund's impact investing criteria could cause it to perform differently compared to funds that do not apply such criteria. Successful application of the Fund's impact investing strategy will depend upon the Adviser's and each sub-adviser's skill in properly identifying and analyzing impact investing issues. Investments made may not generate the amount of positive impact that was intended when the investment was made.
